Freshman Academy

YOUR PATHWAY TO SUCCESS

WELCOME CLASS OF 2021 TO FRESHMAN ACADEMY!

Freshman Academy is just for you!

Freshman Academy provides the opportunity to explore your strengths, interests, and possible academic and career pathways.

As a 9th grade student, you will begin your educational experience in a Freshman Academy to promote an effective and positive transition from middle school to high school. This academy is designed to help you adjust to high school expectations, routines, and standards in a supportive, nurturing environment.

You will be a member of a team with dedicated core teachers, Success IOI teacher, a school counselor, and an administrator. During your 9th grade experience, you will engage in team-based activities, develop your leadership skills, identify and grow your strengths, and discover new interests.

Your Freshman Academy allows you take ownership of your future! This experience will not only help you to make an informed decision as to which of the College and Career Academies you will enroll in your sophomore year, but what career journey you would like to embark on after high school.

Freshman Academy puts you on your unique pathway toward success, while surrounding you with a network of support along your way!
