

K-3 Literacy Resources

Screener

The Virginia Language and Literacy Screening System (VACCSS) is the screener that we now use in Hampton City Schools to determine areas where students would benefit from additional literacy support. More information on the screener can be found [HERE](#).

Books

Reading to your child and listening to them read is an important way to help them grow in the area of literacy. When you read with them, ask questions to practice the connection between reading and understanding what the words mean.

Building Language

There are many great ways to build your child's language and vocabulary. Simple conversations while at the grocery store or walking in your neighborhood can strengthen their language skills and help them become a better reader and writer. Ways to make it part of your routine can be found [HERE](#)!

Activities

Once you know what your child needs to work on, you can look [HERE](#) for a great list of ideas and other resources that will allow you to help your child continue to learn and grow in the areas of language and literacy.
